EDUCATION

California State University, Northridge
Master of Science in Business Analytics

Expected Graduation: May 2028

University of California, Riverside

Sep 2019 - Jun 2023

Bachelor of Science in Computer Science with Business Applications

- Dean's Honor List: Spring 2020, Fall 2020, Winter 2023, Spring 2023

WORK EXPERIENCE

Abbott Laboratories

Oct 2023 - Apr 2026

Software Verification Engineer (Contract)

Sylmar, CA

- Executed 120+ manual and automated test cases across 4 Merlin.net releases, uncovering 30 software defects before production deployment.
- Partnered with a 10-member cross-functional team to investigate defects in device communication, ETL pipelines, APIs, and notification services using JIRA, ClearQuest, and Graylog.
- Verified end-to-end workflows spanning device registration, bonding, transmissions, reporting, and cloud integrations across development and QA environments.
- Tested data synchronization and security processes within Azure Cosmos DB, Azure IoT Hub, PostgreSQL, Azure Blob Storage, and Keyfactor, improving reliability of device provisioning and data exchange.
- Developed and maintained automated regression coverage for 6 languages using Playwright, TypeScript, Selenium WebDriver, and TestNG, increasing test efficiency and application accessibility.

UCR Information Technology Solutions

Apr 2022 - Jun 2023

Student IT HelpDesk Technician

Riverside, CA

- Managed high-volume support requests through Five9, routing calls and documenting incidents to maintain timely customer support.
- Prioritized and tracked technical tickets in ServiceNow, improving visibility and resolution of user-reported issues.
- Resolved Tier 1 technical issues across 6+ enterprise platforms, minimizing downtime for students, faculty, and staff.
- Enforced account security procedures through identity verification checks, maintaining 100% compliance with access-control requirements.
- Performed system maintenance, upgrades, and documentation updates to support operational continuity and accurate change tracking.
